*Wednesday, September 23, 2009*  
*3:30—6*

The Wyckoff Farmhouse Museum is hosting a Supplemental Education Open House. Various institutions will be in attendance for educators and principals to discuss educational programs; the goal of this event is to provide educators with a menu of institutions from which they can explore as possible sites for field trips that will supplement classroom learning and help prepare New York City students for standardized tests.

**Each institution will discuss and/or demonstrate how their programs can either:**

- introduce or conclude a unit or
- give students a chance to use skills necessary for standardized tests and the workplace.
